PROFESSIONAL EXPERIENCE

Data Annotator Reviewer

Remotask
2026 – Current

- *Annotated robot arm actions and movements to create high-quality datasets for AI and machine learning models.*
- Followed detailed project guidelines to accurately label robotic actions and ensure annotation consistency.
- Reviewed completed annotation tasks submitted by other contributors to verify quality and adherence to project standards.
- Identified annotation errors and provided feedback to improve overall dataset accuracy.
- Performed quality assurance checks to maintain high annotation standards across assigned tasks.
- Consistently met productivity, accuracy, and project quality targets in a remote work environment.
- Adapted to evolving annotation guidelines, tools, and project requirements.
- Collaborated with remote teams to support the development of reliable AI training datasets.
